

# PALETTE & CHISELS

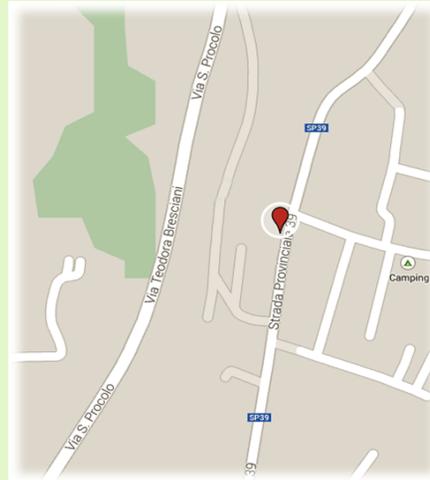

## ABOUT THE PALETTE & CHISELS

So why did we call it "The Palette and Chisels"? Because you can try your hand at both painting and sculpting here, and because I have never been able to choose between painting and sculpting - especially when I can work outside, most of the year round.

- The house offers generous balcony space for an easel.
- In the garden there are a number of places to work on stone.
- There are several secluded places to sit and meditate.
- The tools & materials you need are available.

## The Region

From the house you look out over the Garda Lake to the Rock of Manerba.

# RELAX

### YOU WILL STAY

at the "Palette & Chisels" bed & breakfast, which is a modern villa on the outskirts of San Felice del Benaco.

Our rooms are equipped with tea and coffee-making sets, television, and twin or double beds. There is a WIFI internet connection. The decor is modern, light and airy

A wooden spiral staircase leads to the first floor and the four bedrooms we offer to our guests. Guests looking for a peaceful time alone in the garden will find plenty of retreats in the olive grove or under some of the leafy old trees around the lawns.

Occasionally we will use the huge living room, or the patio for our artistic activities.

# ENJOY

### YOU WILL HAVE

the opportunity to take part in various artistic activities, including excursions to Manerba and Sirmione where you will be able to sketch and capture in watercolour some of the region's best known landmarks.

In the garden of the Villa Paola you can try your hand at sculpture with tutorials / help from John - or simply take advantage of our facilities to follow your own creative instincts.

We also offer oil-painting materials, and of course lessons / tutorials / help and advice or just encouragement; whatever you need to take the next step in your artistic endeavours.

# EXPLORE

### WHILE YOU ARE HERE

you will walk on the beach of the lake Garda, enjoying the balmy mediterranean micro-climate, taste local wines and cuisine.

Local sights include the Sanctuary of the Madonna del Carmine, a late example of Lombard Gothic architecture dating from the 15th century.

Around the area of Manerba there are several archaeological features dating as far back as the neolithic period.

More recently (in the 13th century) the territory surrounding the ancient church of Manerba is mentioned in A charter of Frederick II as Tenense, the probable origin of its current name, Valtenesi.
